RE: International Markets Good Directory (Mercati Internazionali Dizionario Merceologico)

Dear Mr. DeCicco:

Please accept this letter as an expression of thanks of the Loggia Vittorio Veneto #1035, Order Sons of Italy In America, for your participation in the authorship of the work entitled *International Markets Goods Directory*.

This work, in both English and Italian, has immense utility for merchants in the United States and all English speaking countries as well as Italy. Indeed, it is useful to Americans who are importers of Italian goods as well as exporters of US made goods to Italy. It has already proven very useful to members of our organization who are merchants and who engage in international commerce.

It is very obvious that careful analysis and great effort was applied in the production of these volumes. On behalf of the Loggia Vittorio Veneto, #1035, Order Sons of Italy In America, we offer our sincerest thanks and congratulations for your scholarly contribution in the compilation of the data necessary to produce this most important work. Your efforts are a great source of pride to the Italian-American community here and reflect great credit upon yourself, your colleagues, and Italy.

Sincerely,

LOGGIA VITTORIO VENETO #1035
